# 1. Identification data of the list

The service charter presented below covers the passenger rail transport services provided by Ferrocarrils de la Generalitat de Catalunya, as well as the quality commitments and the channels available for submitting suggestions and complaints.

This service charter was approved through Resolution TER/4801/2025, dated the 22nd of December, of the Ministry of Territory, Housing, and Ecological Transition (DOGC no. 9573, of the 30th of December 2025), and is available at <https://portaljuridic.gencat.cat/ca/>.

The body responsible for this list of services is Ferrocarrils de la Generalitat de Catalunya.

## 2. Organisation and form of management of the services

### 2.1. About us

Ferrocarrils de la Generalitat de Catalunya is a public entity with its own independent legal personality that acts as a trading company and enjoys autonomy with regard to its organisation and assets and its full capacity to achieve its purposes.

The entity has a proven track record in rail transport and the management of natural and tourist areas and it has always been firmly committed to sustainability, efficiency and the continuous improvement of the services it provides, by fostering the use of public transport, reducing its environmental impact and implementing responsible practices in all its areas of activity.

### 2.2. What we do

As a public company attached to the Ministry of Territory, Housing and Ecological Transition of the Government of Catalonia, it is entrusted with the functions of operating railway services, administering infrastructures and managing tourist railways and mountain resorts.

Its articles of association are available at this [link](#)

## 2.3. How we do it

To manage the passenger transport service, FGC is divided into different management areas to guarantee the different functions linked to the provision of the service:

- Maintenance of Infrastructure
- Maintenance of Mobile Material
- Regulation of Journeys
- Rail Journeys
- Customer Service at Stations
- Information on the service

FGC provides its services with its own resources stemming from the services on offer and the public funding from the Programme Contract signed with the Government of Catalonia, which guarantees the investments, the maintenance of the infrastructures and the different services that are provided.

In addition to the Programme Contract, the needs of the Metropolitan Lines are financed by another Programme Contract involving the ATM and FGC. These needs are essentially funded by the ATM and, in a complementary manner, by the Government of Catalonia as the FGC's tutelary administration.

## 2. Organisation and form of management of the services

## 3. Our services

### 3.1. Our services

The services provided by FGC are as follows:

Service 1: Transport service for users

Service 2: Customer service for users

### 3.2. Conditions for access and general requirements of the services on the list

Access to the services is of a universal nature, in other words, they are openly available to the population and there are no specific conditions for using them.

### 3.3. Economic regime applicable to the list of services

The passenger transport service entails the payment of a fee. The fee is specified at this [link](#). The other services provided are free of charge.

### 3.4. List of the main services provided and the means of provision

#### Service 1: Transport of users

The main purpose of the service is to connect the territory and people in a sustainable manner. FGC provides passenger transport services along the Barcelona-Vallès, Llobregat-Anoia and Lleida-La Pobla de Segur lines.

To access the service users must obtain a transport ticket that entails paying a fee. The fee is specified at this [link](#).

## Service 2: Customer service for users

# 3. Our services

The purpose of this service is to reply to queries and handle claims made by users.

This service is designed for anyone wishing to send queries or complaints about the management of the services.

To access it, users must fill in the corresponding form at the following links:

- Complaints and claims at this [link](#).
- Suggestions and appreciation at this [link](#).
- Queries at this [link](#).

To access the service in person, users must visit any FGC station or one of the customer service centres to be found at this [link](#).

This service can also be requested at the postal address indicated at this [link](#).

By phoning 012 or, in the event of claims, 900 901 515.

## 3.5. Applicable regulations

The terms and conditions of use for users can be viewed [link](#).

## 4. Our quality commitments

The commitments specified on this list can be required by citizens, as long as the services can be provided under normal conditions, in other words, the services are not disrupted for any fortuitous reasons or by a force majeure affecting their provision.

### Service 1: Transport of users

#### **Commitment 1: To guarantee users' satisfaction with the transport service**

The continuous improvement of the transport service's quality is sought during the provision thereof. The commitment refers to the overall quality of the service provided. The fulfilment of the commitment is measured by the scheduled production performance indicator.

- Quality objective: index equal to or greater than 98.0%.
- Provision channel: in-person.

#### **Commitment 2: To guarantee the punctuality of the trains**

The punctuality of the trains is evaluated. A delay is deemed to exist when the waiting time is greater than three minutes. The commitment refers to the quality and reliability of the service provided. The fulfilment of the commitment is measured in terms of the percentage of trains arriving on time.

- Quality objective: index equal to or greater than 98.0%.
- Provision channel: in-person.

#### **Commitment 3: To guarantee the effective quality of the continuous provision of the service**

The effective quality of the service is sought during the transport service. The commitment refers to the quality and reliability of the service. The fulfilment of the commitment is measured by the quality control index (ICQ).

- Quality objective: quality index totalling at least 95.0%.
- Provision channel: in-person.

## Service 2: Customer service for users

### **Commitment 4: To reply to claims within 11 business days or fewer**

To reply to the complaints received, provided they are not complaints containing content that is offensive, discriminatory, etc., within 11 business days or fewer. The commitment refers to the service's capacity to reply. The fulfilment of the commitment is measured in terms of the fulfilment of the percentage set out in the monitoring indicator.

- Quality objective: index equal to or greater than 95%.
- Provision channel: all.

### **Commitment 5: Respond to enquiries within 15 calendar days or less.**

Respond to enquiries within 15 calendar days or less. Commitment refers to the quality of service responsiveness. This commitment is measured by the percentage achieved in the monitoring indicator.

- Quality objective: index equal to or greater than 95%.
- Delivery channel: all.
